

# The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 100)

Covers the period from 11<sup>th</sup> to 17<sup>th</sup> October 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from October 11 to October 17, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

## Daily Scenes:

## Conclusion:<sup>30</sup>

The population of the Gaza Strip stood at roughly 2.1 million by the end of 2024, marking a 6% drop from 2023 as the genocide and its consequences continued to unfold. Between 11 and 17 October 2025, Israeli occupation forces carried out attacks that killed 73 Palestinians—about 0.0035% of Gaza's population—in just one week, averaging nearly 10 deaths per day. During the same period, the forces wounded 239 Palestinians, equivalent to 0.0114% of the population, or around 34 injuries daily.

Rescue teams also recovered 392 bodies from beneath the rubble, representing about 0.0187% of the population. These figures highlight the intensifying humanitarian catastrophe and the vast scale of destruction resulting from the ongoing Israeli assaults.

<sup>30</sup> Statistical analysis prepared by: The Palestinian Return Centre – Palestinian Return Center .

Official estimates place the West Bank's population at about 3.4 million in 2024. Between 11 and 17 October 2025, Israeli occupation forces killed three Palestinians in the West Bank over the course of a single week. In that same period, the forces injured 63 Palestinians—around 0.00185% of the population—averaging roughly nine injuries per day.

Israeli forces also arrested 118 Palestinians, amounting to about 0.00347% of the population and averaging nearly 17 detainees per day. These figures underscore the continued escalation of Israeli operations and the growing pattern of violations against civilians across West Bank governorates.

Daily average number of injuries from October 11 to October 17, 2025	9	<b>Daily rate of injuries</b>
Number of deaths from October 11 to October 17, 2025	3	<b>Number of deaths</b>

The data shows that Israeli attacks across the occupied Palestinian territories affected 888 people in one week, including 76 killed, 302 wounded, 133 detained, and 392 bodies recovered from the rubble. Together, these figures amount to 0.016% of the total population, with a daily average of roughly 127 victims—about 0.0023% of the population each day. The scale of these violations points to a systematic pattern of genocide and ethnic cleansing.

The reporting period also saw repeated breaches of the October 2015 agreement regulating the entry of humanitarian aid and medical supplies. In addition, the report documented the condition of Palestinian bodies held by Israeli authorities, noting clear signs of torture and evidence suggesting extrajudicial killings.
