

# **The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 101)**

**Covers the period from 18<sup>th</sup> to 24<sup>th</sup> October 2025**

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from October 18 to October 24, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

## Daily Scenes:

## Conclusion:<sup>30</sup>

The population of the Gaza Strip stood at roughly 2.1 million by the end of 2024, marking a 6% drop from 2023 due to the ongoing genocide and its repercussions. The situation remains catastrophic.

Between 18 and 24 October 2025, Israeli occupation forces carried out attacks that killed 72 Palestinians, around 0.00343% of the population, in just one week, an average of nearly ten fatalities per day. The assaults also injured 203 Palestinians, equivalent to 0.00967% of the population, averaging about 29 injuries daily.

During the same period, rescue teams recovered 83 bodies from beneath the rubble, representing approximately 0.00395% of Gaza's population. These figures underscore the deepening humanitarian disaster and the extensive destruction caused by Israel's ongoing attacks.

Official estimates place the West Bank's 2024 population at roughly 3.4 million. Between 18 and 24 October 2025, Israeli occupation forces killed three Palestinians over the course of a week. In the same period, they injured 32 Palestinians, around 0.00094% of the population, averaging nearly five injuries per day.

Israeli forces also detained 129 Palestinians, amounting to approximately 0.00379% of the population and averaging about 18 arrests per day. These figures highlight the persistence of Israeli escalation and the growing pattern of violations targeting civilians across multiple West Bank governorates.

Statistics from the period October 18 and October 24, 2025, show that Israeli attacks affected 525 Palestinians across the occupied Palestinian territories. Israeli forces killed 75 people (72 in the Gaza Strip and 3 in the West Bank), wounded 235 others (203 in Gaza and 32 in the West Bank), and detained 132 Palestinians (129 in the West Bank and 3 in Gaza). Rescue teams in Gaza also recovered 83 bodies that had previously been reported missing.

These figures represent about 0.0125% of the total population in a single week, an average of nearly 75 people affected per day, or roughly 0.0018% of the daily population. The data points to a continued, systematic policy of genocide and ethnic cleansing.

During the same week, Israeli authorities continued to violate the October 2025 agreement about the entry of humanitarian aid and medical supplies by closing key crossings into Gaza. The report further documents the condition of bodies that had been held by Israeli forces, noting signs of torture and evidence in some cases suggesting extrajudicial killings.
