

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 102)

Covers the period from 25th to 31st October 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from October 25 to October 31, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

They also injured 289 Palestinians, or 0.01376% of the population, averaging around 41 injuries daily.

Rescue teams recovered 50 bodies from beneath the rubble during the same period, representing about 0.00238% of Gaza's population. These figures underscore the intensifying humanitarian crisis and the extensive destruction resulting from Israel's continued attacks.

The data shows that Israeli attacks across the occupied Palestinian territories affected 624 people between October 25 and 31, 2025. The assaults resulted in 120 deaths – 115 in the Gaza Strip and five in the West Bank – along with 338 injuries, including 289 in Gaza and 49 in the West Bank. Israeli forces also detained 124 Palestinians in the West Bank, while rescue teams recovered 50 bodies in Gaza that had previously been listed as missing.

These figures amount to roughly 0.0099% of the total population in a single week, with an average of nearly 89 people affected per day – about 0.0013% of the daily population. The scale of these violations demonstrates Israel's continued targeting of civilians and its escalating policies of genocide and ethnic cleansing across the occupied territories. During the same period, Israel also continued to breach the terms of the October 2025 agreement governing the entry of humanitarian and medical supplies, as crossings into Gaza remained effectively closed.
