

**The Israeli Aggression on
Gaza Strip and the West Bank
Situation Report (No. 105)**
Covers the period from 15th to 21th November 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from November 15 to November 21, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

The Gaza Strip's population stood at about 2.13 million by the end of 2025, marking a roughly 10.6% decline from pre-October 7, 2023, levels due to the ongoing genocide. Between November 15 and 21, 2025, Israeli occupation forces carried out attacks that killed 50 Palestinians—about 0.00235% of the population in just seven days, or nearly seven deaths per day. The same period saw 184 Palestinians wounded, around 0.00864% of the population, averaging roughly 26 injuries daily.

Rescue teams also recovered 18 bodies from beneath the rubble, equal to about 0.000845% of Gaza's population, underscoring the worsening humanitarian catastrophe and the extensive destruction caused by continued Israeli attacks on the territory.

The West Bank's population reached an estimated 3.43 million by the end of 2025, according to official figures. Between November 15 and 21, 2025, Israeli occupation forces killed seven Palestinians in the West Bank, accounting for about 0.000204% of the population over seven days, or nearly one death per day.

Over the same period, Israeli forces wounded 52 Palestinians—approximately 0.00152% of the population—an average of about seven injuries per day. Arrests climbed to 173, roughly 0.00504% of the West Bank's population, averaging nearly 25 arrests daily. These figures highlight continued Israeli escalation and mounting violations against civilians across multiple West Bank governorates.

These figures show that Israeli attacks affected 484 Palestinians across the occupied Palestinian territories between November 15 and 21, 2025. The toll includes 57 fatalities—50 in the Gaza Strip and seven in the West Bank—along with 236 wounded, including 184 in Gaza and 52 in the West Bank. Israeli forces also detained 173 people in the West Bank, while recovery teams in Gaza pulled 18 bodies from beneath the rubble after the victims had been reported missing.

Overall, the violence impacted about 0.0087% of the total population in just one week, with a daily average of nearly 69 affected individuals, or roughly 0.00124% of the population per day. These numbers underscore Israel's continued targeting of civilians and the escalation of policies amounting to genocide and ethnic cleansing in the occupied Palestinian territories. The reporting period also saw ongoing Israeli violations of the October 2025 agreement on the entry of humanitarian aid and medical supplies, as authorities kept humanitarian corridors in the Gaza Strip closed.
