

**The Israeli Aggression on
Gaza Strip and the West Bank
Situation Report (No. 106)**
Covers the period from 22nd to 30th November 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from November 22 to November 30, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁸

By the end of 2025, the population of the Gaza Strip stood at about 2.13 million, marking a decline of roughly 10.6% from its level before October 7, 2023, due to the ongoing genocide. Between November 22 and 30, 2025, Israeli occupation forces carried out attacks that killed 49 Palestinians—about 0.0023% of Gaza’s population—over just nine days, averaging nearly five deaths per day. During the same period, 162 Palestinians suffered injuries, accounting for approximately 0.0076% of the population, or about 18 injuries per day.

Rescue teams also recovered 35 bodies from beneath the rubble, representing around 0.00164% of the total population. These figures underscore the deepening humanitarian crisis and the extensive destruction caused by Israel’s continued assaults on the Gaza Strip.

Official population estimates show that the West Bank population reached approximately 3.43 million by the end of 2025. Between November 22 and 30, 2025, Israeli occupation forces assassinated six Palestinians in the West Bank over just nine days. During the same period, Israeli attacks injured 104 Palestinians, accounting for about 0.00303% of the population, with an average of roughly 11.5 injuries per day.

Israeli forces also arrested 205 Palestinians, representing approximately 0.00597% of the West Bank's population, with a daily average of about 23 arrests. These figures highlight the continued Israeli escalation and the growing pattern of violations against civilians across multiple West Bank governorates.

Details	Number/Ratio	Data
Number of deaths from November 22 to November 30, 2025	6	Number of deaths
Number of arrests from November 22 to November 30, 2025	205	Number of arrests / prisoners
Number of wounded from November 22 to November 30, 2025	104	Number of wounded
Estimated population of the West Bank for 2025	3.43 million	Total population of the West Bank
The rate of arrest crimes compared to the population of the West Bank	0.00597%	Percentage of arrest crimes relative to the total population
Percentage of wounded compared to the population of the West Bank	0.00303%	Percentage of injured people as a percentage of the total population
Average number of arrests per day from November 22 to November 30, 2025	23	Daily rate of arrests
Daily average number of injuries from November 22 to November 30, 2025	12	Daily rate of injuries

These figures show that Israeli attacks affected a total of 561 Palestinians across the occupied Palestinian territories between November 22 and 30, 2025. The toll includes 55 deaths—49 in the Gaza Strip and six in the West Bank—along with 266 injuries, including 162 in Gaza and 104 in the West Bank. Israeli forces also detained 205 Palestinians in the West Bank, while rescue teams recovered 35 bodies from beneath the rubble in Gaza after they had been reported missing.

Overall, these incidents affected approximately 0.00886% of the total population in just nine days, averaging nearly 62 people per day, or about 0.000985% of the population daily. The data underscore Israel's continued policy of widespread attacks on civilians and the escalation of genocide and ethnic cleansing in the occupied Palestinian territories. The reporting period also saw ongoing Israeli violations of the October 2025 agreement, particularly provisions related to the entry of humanitarian aid and medical supplies, as Israeli authorities kept humanitarian corridors in the Gaza Strip closed.
