

**The Israeli Aggression on
Gaza Strip and the West Bank
Situation Report (No. 107)**

Covers the period from 1st to 7th December 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from December 1 to December 7, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

By the end of 2025, Gaza's population stood at approximately 2.13 million, marking a decline of about 10.6% from before October 7, 2023 levels due to the ongoing genocide. Between December 1 and 7, 2025, the Israeli occupation army carried out attacks that killed 18 people—about 0.00085% of the total population—in just seven days, averaging nearly three deaths per day. The attacks also injured 59 people, or roughly 0.00277% of the population, with an estimated daily average of eight injuries.

During the same period, Israeli forces arrested four people, while rescue teams recovered 17 bodies from beneath the rubble, accounting for about 0.0008% of Gaza's population. These figures underscore the escalating humanitarian crisis and the extensive destruction caused by Israel's continued attacks on the Gaza Strip.

These figures show that Israeli attacks affected a total of 255 Palestinians across the occupied Palestinian territories between December 1 and 7, 2025. The toll included 26 deaths—18 in the Gaza Strip and eight in the West Bank—along with 121 injuries, comprising 59 in Gaza and 62 in the West Bank. Israeli forces also detained 91 Palestinians during the period, including four in Gaza and 87 in the West Bank, while rescue teams recovered 17 bodies from beneath the rubble in Gaza after they had been reported missing.

Overall, these incidents affected approximately 0.00458% of the total population in just seven days, with a daily average of nearly 36.4 people, or about 0.000655% of the population per day. The data highlight the continuation of Israel's widespread targeting of civilians and the escalation of systematic killing and ethnic cleansing across the occupied Palestinian territories. The reporting period also saw ongoing Israeli violations of the October 2025 agreement governing the entry of humanitarian aid and medical supplies, due to the closure of humanitarian corridors in Gaza and continued restrictions on freedom of movement in the West Bank.
