

**The Israeli Aggression on
Gaza Strip and the West Bank
Situation Report (No. 108)**
Covers the period from 8th to 14th December 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from December 8 to December 14, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

By the end of 2025, Gaza's population had declined to approximately 2.13 million—down about 10.6% from pre-October 7, 2023 levels—due to the ongoing genocide. Between December 8 and 14, 2025, Israeli occupation forces carried out attacks that killed 57 Palestinians, accounting for roughly 0.00268% of the population in just one week, or an average of eight deaths per day.

During the same period, 48 people were injured—about 0.00225% of the population—at a daily average of seven injuries. Israeli forces also arrested four individuals, while rescue teams recovered eight bodies from beneath the rubble, representing approximately 0.00038% of Gaza's population. These figures underscore the deepening humanitarian catastrophe facing Gaza's residents.

During the same period, 38 people were injured, representing roughly 0.00111% of the population, with an average of five injuries per day. Israeli forces also arrested 222 Palestinians, equivalent to about 0.00647% of the West Bank's population, at a daily average of approximately 32 detainees. These figures show that Israeli attacks affected a total of 382 Palestinians across the occupied Palestinian territories between December 8 and 14, 2025. The toll includes 62 deaths—57 in the Gaza Strip and 5 in the West Bank—along with 86 injuries, including 48 in Gaza and 38 in the West Bank. Israeli forces also detained 226 people—4 in Gaza and 222 in the West Bank—while recovery teams retrieved eight bodies from beneath the rubble in Gaza after they had been reported missing.

Overall, these incidents affected approximately 0.00686% of the total population in just seven days, with a daily average of about 54.6 people, or roughly 0.00098% of the population each day. These figures highlight Israel's continued policy of widespread attacks on civilians and the escalation of systematic killing and ethnic cleansing practices across the occupied Palestinian territories.

The reporting period also saw a marked increase in the intensity of attacks and ongoing Israeli violations of the October 2025 agreement governing the entry of humanitarian aid and medical supplies. The closure of humanitarian corridors in the Gaza Strip and tighter restrictions on freedom of movement in the West Bank have further deepened the catastrophic humanitarian conditions facing Palestinians in both areas.
