

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 109)

Covers the period from 15th to 21st December 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from December 15 to December 21, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Israeli attacks affected at least 250 Palestinians across the occupied Palestinian territories between December 15 and 21, 2025. The toll included 17 deaths—13 in the Gaza Strip and four in the West Bank—alongside 102 wounded, including 47 in Gaza and 55 in the West Bank. Israeli forces also detained 118 Palestinians, four in Gaza and 114 in the West Bank, while rescue teams recovered 17 bodies from under the rubble in Gaza after they had been reported missing.

These figures represent approximately 0.00449% of the total population in just seven days, with a daily average of nearly 35.7 affected individuals, or about 0.00064% of the population per day. The data reflects Israel's continued policy of widespread targeting of civilians and the escalation of systematic killing and ethnic cleansing across the occupied Palestinian territories.

The reporting period also saw a marked increase in the pace of attacks and continued Israeli violations of the October 2025 agreement governing the entry of humanitarian aid and medical supplies. The closure of humanitarian corridors in Gaza and tighter restrictions on movement in the West Bank further deepened the already catastrophic humanitarian conditions facing Palestinians in both areas.
