The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 114)

Covers the period from 15th to 21st January 2026

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from from January 15 to January 21, 2026. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

By the end of 2025, the population of the Gaza Strip stood at approximately 2.13 million, a decline of about 10.6% compared to the period before October 7, 2023, as a direct result of the ongoing genocide.

Between January 15 and January 21, 2026, Israeli occupation forces killed 28 Palestinians, accounting for roughly 0.00131% of Gaza's total population, with an average of nearly four deaths per day within just one week. During the same period, they injured 55 others, about 0.0026% of the population, averaging more than seven injuries per day.

Rescue teams also recovered the bodies of three additional victims from beneath the rubble.

These figures underscore the deepening humanitarian catastrophe in Gaza, where residents continue to endure relentless attacks, a suffocating blockade, critical shortages of essential supplies, and the near-total collapse of infrastructure, all amid extremely harsh living and health conditions.
