

**The Israeli Aggression on
Gaza Strip and the West Bank
Situation Report (No. 115)**

Covers the period from 22nd to 28th January 2026

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from January 22 to January 28, 2026. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

By the end of 2025, the population of the Gaza Strip stood at approximately 2.13 million, a decrease by about 10.6% compared with figures before 7 October 2023, amid the ongoing genocide.

Between 22 and 28 January 2026, Israeli occupation forces killed 26 Palestinians in a series of attacks, accounting for roughly 0.00122% of Gaza's total population. The assaults averaged nearly four deaths per day over the course of a single week.

The same attacks injured 62 Palestinians, about 0.0029% of the population, an average of more than eight injuries per day. Rescue teams also recovered the bodies of two additional victims from beneath the rubble during that period.

These figures underscore the deepening humanitarian catastrophe in Gaza, where residents continue to endure sustained military aggression, a tightening blockade, severe shortages of basic supplies, and the near-total collapse of infrastructure, all amid increasingly dire living and health conditions.

Official estimates put the population of the West Bank at approximately 3.43 million by the end of 2025.

Between January 22 and 28 January 2026, Israeli occupation forces assassinated three Palestinians, continuing what rights groups describe as a policy of deliberate targeting and

unlawful killings. During the same period, 59 Palestinians were injured, around 0.00172% of the population, an average of more than eight injuries per day.

The occupation army also arrested 119 Palestinians over those seven days, representing roughly 0.00347% of the West Bank's population, at a rate of about 17 arrests per day.

The figures reflect what observers say is a sustained escalation, as Israeli forces intensify operations and violations against civilians across multiple governorates in the West Bank.

Between January 22 and 28 January 2026, Israeli attacks affected a total of 271 Palestinians across the occupied territories. The assaults claimed 29 lives, 26 in the Gaza Strip and 3 in the West Bank, accounting for roughly 0.00084% of the total population, averaging about four deaths per day.

During the same period, 121 Palestinians were injured (62 in Gaza, 59 in the West Bank), representing around 0.00175% of the population, with a daily average of 17 injuries. The occupation army also arrested 119 Palestinians, nearly all from the West Bank, roughly 0.00172% of the population, at an average of 17 detentions per day.

Rescue teams recovered the bodies of two more victims from the rubble in Gaza, about 0.00009% of the population, indicating that others likely remain trapped under debris from ongoing bombardments.

Overall, the 271 affected individuals, including deaths, injuries, detainees, and recovered bodies, represent approximately 0.0041% of the total population, averaging 39 civilians impacted per day. These figures highlight the continued pattern of Israeli violence targeting civilians and escalating hostilities across the occupied Palestinian territories.
