

**The Israeli Aggression on  
Gaza Strip and the West Bank  
Situation Report (No. 117)**

**Covers the period from 1<sup>st</sup> to 7<sup>th</sup> February 2026**

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from February 1 to February 7, 2026. It also includes data on the consequences of the genocide since October 7, 2023.

## Conclusion:<sup>30</sup>

By the end of 2025, the population of the Gaza Strip stood at approximately 2.13 million, marking a 10.6% decline compared to the period before October 7, 2023, as a result of the ongoing genocide.

Between February 1 and 7, 2026, Israeli occupation forces carried out attacks that killed 84 Palestinians, around 0.0039% of Gaza's total population, an average of nearly 12 deaths per day within a single week. During the same period, 174 Palestinians sustained injuries, accounting for approximately 0.0082% of the population, with an average of about 25 injuries per day.

Rescue teams also recovered the bodies of two victims from beneath the rubble during that week.

These figures underscore the deepening humanitarian catastrophe in Gaza, where residents continue to endure sustained aggression, a crippling blockade, severe shortages of essential supplies, and the near-total collapse of infrastructure, all amid increasingly dire living and health conditions.

According to official population data, the West Bank's population reached approximately 3.43 million by the end of 2025.

Between February 1 and 7, 2026, Israeli occupation forces killed three Palestinians in the West Bank, averaging one death every two days. During the same period, 57 Palestinians were injured, around 0.00166% of the total population, with a daily average of approximately eight injuries.

Israeli forces also arrested 132 Palestinians over the same week, representing about 0.00385% of the West Bank's population, at a rate of roughly 19 detentions per day. These figures reflect a continued escalation and an increase in violations against civilians across multiple governorates in the West Bank.

Statistics show that 452 people were affected by Israeli attacks in the occupied Palestinian territories between February 1 and 7, 2026.

During that period, 87 Palestinians were killed, 84 in the Gaza Strip and three in the West Bank, representing approximately 0.0019% of the total population of the Palestinian territories, with a daily average of about 12 deaths over seven days.

A further 231 Palestinians were injured, including 174 in the Gaza Strip and 57 in the West Bank. The injured account for around 0.005% of the total population, with an average of 33 injuries per day.

Israeli occupation forces also arrested 132 Palestinians, all in the West Bank, representing approximately 0.0029% of the population, at a daily average of about 19 arrests.

Rescue teams recovered the bodies of two victims from beneath the rubble of destroyed buildings in the Gaza Strip. These recovered bodies represent roughly 0.00009% of Gaza's population, about one body every three and a half days, indicating that more victims may remain trapped under debris from ongoing bombardment.

In total, 452 people were killed, injured, detained, or recovered from under the rubble during this period, amounting to approximately 0.0098% of the total population in the Palestinian territories, with a daily average of about 65 people affected. These figures point to the continued escalation of violence and its impact on civilians across the occupied Palestinian territories.
