

The Israeli Aggression on Gaza Strip and the West Bank

Situation Report (No. 118)

Covers the period from 8th to 14th February 2026

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from February 8 to February 14, 2026. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

The population of the Gaza Strip stood at around 2.13 million by the end of 2025, marking a decline of approximately 10.6% compared with figures recorded before October 7, 2023, amid the ongoing genocide.

Between February 8 and 14, 2026, Israeli occupation forces carried out attacks that killed 24 Palestinians, accounting for roughly 0.0011% of Gaza's total population, an average of nearly three deaths per day over the course of a single week. The assaults also injured 61 Palestinians, representing about 0.0029% of the population, or an average of nine injuries per day.

During the same period, rescue teams recovered the bodies of five additional victims from beneath the rubble.

These figures underscore the deepening humanitarian crisis in Gaza, where residents continue to endure sustained aggression, a prolonged blockade, critical shortages of essential supplies, and the widespread collapse of infrastructure, all amid increasingly dire living and health conditions.
