

**The Israeli Aggression on
Gaza Strip and the West Bank
Situation Report (No. 120)**

Covers the period from 22nd to 28th February 2026

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from February 22 to February 28, 2026. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁰

By the end of 2025, the population of the Gaza Strip stood at approximately 2.13 million people, marking a decline of about 10.6% compared to the population before October 7, 2023, as a result of the ongoing genocide.

Between February 22 and February 28, 2026, the Israeli occupation army carried out attacks that killed 29 Palestinians, about 0.00136% of Gaza's total population, averaging nearly four deaths per day over the seven-day period.

Israeli attacks also injured 53 people during the same week, accounting for roughly 0.0025% of the population, with an estimated daily average of eight wounded. Rescue teams also recovered the bodies of two victims from under the rubble during this period.

These figures highlight the deepening humanitarian catastrophe facing Gaza's population amid continued aggression, siege, severe shortages of essential supplies, and the collapse of infrastructure, while residents endure extremely harsh living and health conditions.

³⁰ Statistical analysis prepared by: The Palestinian Return Centre – Palestinian Return Center .

Details	Percentage of the total population	Number/Ratio	Data
Total population of the Gaza Strip until the end of 2025	--	2.13 million people	Population of the Gaza Strip until the end of 2024
A decrease of 10.6% compared to 2023 due to genocide	--	10.6%	Population decrease compared to 2023

Daily average of injuries from February 22 to February 28, 2026	--	8	Average number of injured per day

By the end of 2025, the population of the West Bank reached approximately 3.43 million people, according to official statistics.

Between February 22 and 28, 2026, Israeli occupation forces carried out attacks that killed two Palestinians, averaging nearly one death every four days during the reporting period.

During the same week, Israeli forces injured 50 Palestinians, about 0.0015% of the population, with a daily average of around seven injuries.

Israeli forces also arrested 89 Palestinians, representing approximately 0.0026% of the West Bank's population, with a daily average of about 13 arrests. In addition, Israeli forces and settlers forcibly displaced four Palestinians from their homes, about 0.00012% of the population, averaging less than one displacement per day.
