## 2. Political and Humanitarian Repercussions:

The period covered by this report witnessed a return to talk about drafting an agreement to stop the genocide in the Gaza Strip, but the failure to draft an agreement confirmed the strategy of the Israeli occupation authorities and the US administration, which seeks to continue the genocide by preventing the entry of aid and linking it to reaching a final agreement from the Israeli-American point of view. This keeps millions of Palestinians vulnerable to extinction due to famine and the prevention of the entry of medical supplies.<sup>15</sup>

During the period covered by this report, discussions resurfaced around drafting an agreement to halt the ongoing genocide in the Gaza Strip. However, the failure to finalize such an agreement underscored the strategy of the Israeli occupation authorities and the U.S. administration, which appear intent on perpetuating the genocide by obstructing the entry of humanitarian aid and tying it to the acceptance of a final agreement from an Israeli-American perspective. This approach leaves millions of Palestinians at risk of extinction due to famine and the denial of medical supplies.

Simultaneously, the Israeli occupation army continues to commit grave violations against civilians in the Gaza Strip, including the forced displacement and mass displacement of over 1.7 million Palestinian citizens. Under the threat of death, bombing, and the use of internationally prohibited weapons, these civilians have been compelled to leave their homes and neighborhoods. These actions constitute crimes against humanity and starkly illustrate the deliberate intent of the
