## 2. Political and Humanitarian Repercussions:

During the period covered by this report, an egregious violation of international law was documented when the Israeli occupation army sent 88 bodies of deceased Palestinians to the Gaza Strip without oversight from any international or local body. No details were provided regarding the identities of the deceased, such as their names, ages, or the circumstances of their deaths.

Additionally, two massacres were recorded during this time when Israeli forces bombed the "Khaled bin Al-Walid" and "Kafr Qasim" schools in Al-Nuseirat and Al-Shati camps, which were sheltering more than 10,000 displaced individuals.

Shirin Observatory, previous source.

The attacks claimed the lives of 10 people, including five children and women, and caused numerous injuries. These massacres form part of the broader genocidal war waged by the occupation, which has targeted 183 shelters as of September 23, 2024, including 163 schools, resulting in the deaths of 1,133 people inside these centers.

In terms of humanitarian repercussions, Al-Aqsa Martyrs Hospital in central Gaza announced it faces imminent shutdown within 10 days due to the depletion of fuel and essential spare parts for its electric generators. The hospital serves over a million people in the region and has been operating entirely on generators for a year due to continuous power outages. Its closure would lead to a severe humanitarian crisis, especially given the enormous pressure already burdening medical staff.

### 3. Human Losses and Material Damage:<sup>23</sup>
