

# The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 62)

Covers the period from 25<sup>th</sup> to 31<sup>st</sup> January 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Despite the temporary ceasefire, the genocide persists under the convention's framework, as the large-scale destruction has turned Gaza uninhabitable. Moreover, repeated violations of the ceasefire agreement continue, deepening the suffering of civilians trapped under siege and systematic devastation.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between January 25 and January 31, 2025.

After reviewing the data on the Israeli occupation's attacks and crimes from January 25 to 31, 2025, the table below presents the overall impact of these assaults from October 7, 2023, to January 31, 2025, including the number of deaths, injuries, displaced people, and prisoners.

<b>Gaza Strip</b>	1.5 million	<b>Number of displaced people</b>
	520	<b>Number of bodies recovered</b>
	47460	<b>Total number of deaths from 10/7/2023 to 1/31/2025</b>
	111580	<b>Total number of injured from 10/7/2023 to 1/31/2025</b>
<b>West Bank</b>	24300	<b>Number of displaced people</b>
	15018	<b>Arrest cases</b>
	908	<b>Total number of deaths from 10/7/2023 to 1/31/2025</b>
	3209	<b>Total number of injured from 1/1/2025 to 31/1/2025</b>

### 3. Conclusion:

This data confirms that despite the ceasefire agreement taking effect, multiple violations continued, including assassinations and destruction in the Gaza Strip. Additionally, efforts to conceal genocide crimes persisted, as the occupation delayed the entry of equipment needed to clear rubble and retrieve bodies.

Meanwhile, attempts to evade international accountability were evident, with the US administration issuing threats to displace Gaza's population and depopulate the territory of its indigenous Palestinian residents.

In the West Bank, attacks on refugee camps in the north intensified, mirroring the genocidal crimes witnessed in Gaza. These assaults, which include assassinations, forced displacement, and camp demolitions, pose a grave threat to refugees' right to return. Furthermore, settler violence surged, accompanied by the establishment of new settlement outposts and the expansion of existing ones.
