

# The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 63)

Covers the period from 1<sup>st</sup> to 7<sup>th</sup> February 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Despite the temporary ceasefire, the genocide persists under the convention's framework, as the large-scale destruction has turned Gaza uninhabitable. Moreover, repeated violations of the ceasefire agreement continue, deepening the suffering of civilians trapped under siege and systematic devastation.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between February 1 and February 7, 2025.

### 3. Conclusion:

Despite the ceasefire declared on January 19, 2025, Israeli occupation authorities continue to commit genocide in the Gaza Strip by imposing devastating living conditions and depriving Palestinians of basic necessities.

This follows more than 15 months of widespread killing and destruction. The occupation authorities persist in policies that systematically threaten the population's survival through slow and deliberate harm. The ongoing illegal siege restricts the flow of humanitarian aid and essential supplies, prevents the repair of critical infrastructure, and blocks access to vital services necessary for survival.

In the West Bank, Israeli occupation authorities have intensified their attacks through military operations and settler violence, aiming to displace Palestinians, destroy their livelihoods, and demolish or burn their properties. Reports document a surge in targeted assassinations, including attacks on civilians, women, and children.

During the reporting period, occupation forces continued the destruction of refugee camps in the northern West Bank, including Jenin, Nur Shams, and Tulkarm camps.

Additionally, attacks targeted UNRWA, with the enforcement of a law restricting its operations, leading to damage to 13 schools.
