

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 64)

Covers the period from 8th to 14th February 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Despite the temporary ceasefire, the genocide persists under the convention's framework, as the large-scale destruction has turned Gaza uninhabitable. Moreover, repeated violations of the ceasefire agreement continue, deepening the suffering of civilians trapped under siege and systematic devastation.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between February 8 and February 14, 2025.

3. Conclusion:

Israeli occupation forces repeatedly violated the truce during this period, carrying out killings, arrests, and facility destruction, particularly in southern Gaza.

Authorities also blocked the entry of humanitarian supplies, refusing to allow mobile homes, heavy equipment, and machinery through the Rafah crossing, despite their availability on the Egyptian side.

Meanwhile, around 1.5 million people remain homeless due to the destruction of their homes, while the entire population of 2.4 million faces severe shortages of basic services and a collapsed infrastructure.

In the West Bank, Israeli occupation forces forcibly displaced tens of thousands of Palestinians as part of their aggression. IOF targeted cities, villages, and camps in the northern West Bank under a systematic policy aimed at uprooting Palestinians from their lands and imposing new realities that violate international law.

The occupation intensified its operations in the area, worsening the humanitarian crisis and deepening civilian suffering.³⁰
