

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 67) Covers the period from 1<sup>st</sup> to 7<sup>th</sup> March 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Despite the temporary ceasefire, the genocide persists under the convention's framework, as the large-scale destruction has turned Gaza uninhabitable. Moreover, repeated violations of the ceasefire agreement continue, deepening the suffering of civilians trapped under siege and systematic devastation.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army–part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between March 1 and March 7, 2025.

# 3. Conclusion:

During the reporting period, Israeli occupation authorities announced a total halt to humanitarian aid entering the Gaza Strip, blocking all essential goods and supplies while closing the crossings. This decision comes amid escalating Israeli actions against Gaza's population, signaling a deliberate strategy to use starvation as a tool of genocide.<sup>29</sup>

In the West Bank, Israeli occupation authorities escalated mass arrests and assassinations targeting Palestinian civilians. During the reporting period, attacks on refugee camps in the northern West Bank intensified, with more buildings burned and destroyed, forcing thousands of refugees to be displaced. As a result, these camps have become uninhabitable.<sup>30</sup>
