

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 69)

Covers the period from 15th to 21st March 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Despite the temporary ceasefire, the genocide persists under the convention's framework, as the large-scale destruction has turned Gaza uninhabitable. Moreover, repeated violations of the ceasefire agreement continue, deepening the suffering of civilians trapped under siege and systematic devastation.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between March 15, 2025, and March 21, 2025.

Data not updated by the relevant authorities: Facilities destroyed in the Gaza Strip during the truce period.

³⁰ Statistical data is sometimes issued referring to the number of households rather than individuals. The average number of household members in Palestine is 4-5.

After reviewing the data on the Israeli occupation's attacks and crimes from March 15 to March 21, 2025, the table below presents the overall impact of these assaults from October 7 and March 21, 2025, including the number of deaths, injuries, displaced people, and prisoners.

Gaza Strip	1.5 million	Number of displaced people
	961	Number of bodies recovered
	49617	Total number of deaths from 10/7/2023 to 3/21/2025
	112950	Number of wounded from 10/7/2023 to 3/21/2025
West Bank	+40500	Number of displaced people
	9500	Number of prisoners in occupation prisons
	954	Total number of deaths from 10/7/2023 to 3/21/2025
	9100	Total number of wounded from 10/7/2023 to 3/21/2025

3. Conclusion:

During the reporting period, the Israeli occupation committed a major violation of the ceasefire agreement, not just breaching a single provision but launching a full-scale return to mass assassinations, widespread destruction, and the forced displacement of Palestinian civilians in the Gaza Strip. This escalation came as a direct result of the international community's silence, which effectively gave the occupiers a green light to continue committing genocide, war crimes, and crimes against humanity.

In the West Bank, the Israeli military carried out a systematic campaign against Al-Ain refugee camp in Nablus, aiming to displace its residents and reshape its geographic landscape. This assault forms part of a broader offensive targeting refugee camps across the northern West Bank. Israeli forces have violently raided homes, vandalized property, and brutally assaulted residents, leaving many with gunshot wounds and injuries from beatings. They have also forcibly evacuated around 80 families, turned several homes into closed military zones, and warned residents not to return permanently.
