

# The Israeli Aggression on Gaza Strip and the West Bank **Situation Report (No. 72)**

Covers the period from 8<sup>th</sup> to 14<sup>th</sup> April 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between April 8, 2025, and April 14, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

### 3. Conclusion:

During the reporting period, the West Bank and Gaza Strip faced severe political and humanitarian fallout. Israeli forces escalated military operations, deliberately destroying essential infrastructure—including the targeted bombing of the Baptist Hospital in Gaza—as part of a broader policy to dismantle daily life and deprive civilians of basic survival conditions. The ongoing blockade and restrictions on aid entry further deepened the crisis, pushing food and water insecurity to their worst levels since October 2023.

Israeli authorities have tightened restrictions in the West Bank, ordering the closure of six UNRWA schools in East Jerusalem and disrupting education for around 800 students. At the same time, nearly 700,000 Palestinians now require food aid—almost double the number before the recent escalation—with northern West Bank refugee camps hit hardest.
