

# The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 74)

Covers the period from 22<sup>nd</sup> to 30<sup>th</sup> April 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between April 22, 2025, and April 30, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

By the end of 2024, the population of the Gaza Strip dropped to around 2.1 million—marking a 6% decrease from 2023—due to the ongoing genocide and its devastating humanitarian impact. This data reveals catastrophic political and humanitarian repercussions, highlighting the ongoing genocide and ethnic cleansing in both the Gaza Strip and the West Bank. The Israeli military continues to enforce forced displacement, restrict access to essential food and medical supplies, and tighten the blockade on Gaza.

In the West Bank, the data underscores the implementation of settlement expansion and annexation plans, which pose daily threats to Palestinian survival. Together, these developments reflect a profound human and social hemorrhage that gravely endangers the continued existence of the Palestinian people.
