

The Israeli Aggression on Gaza Strip and the West Bank **Situation Report (No. 76)**

Covers the period from 8th to 15th May 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between May 8, 2025, and May 15, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

This data highlights the catastrophic political and humanitarian repercussions from Israel's ongoing crimes of genocide and ethnic cleansing in both the Gaza Strip and the West Bank. In Gaza, these crimes continue amid intensifying forced displacement, severe shortages of food and medical supplies, a relentless blockade, and the ongoing denial of humanitarian aid. In the West Bank, the data reflects the acceleration of settlement expansion and annexation plans, which pose daily threats to Palestinian lives and presence. Collectively, the figures reveal a profound human and social hemorrhage that gravely endangers the very existence of the Palestinian people.
