

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 77)

Covers the period from 16–23 May 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between May 16, 2025, and May 23, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:³⁴

By the end of 2024, around 2.1 million people lived in the Gaza Strip, marking a 6% drop from the previous year, largely driven by the ongoing genocide and its devastating humanitarian toll. Between May 16 and 23, 2025, Israeli occupation forces killed 808 Palestinians in Gaza—roughly 0.038% of the total population—averaging about 101 deaths per day. During the same eight-day period, they injured 2,384 others, or about 0.114% of the population, with an average of 298 injuries per day.

This data underscores the severe political and humanitarian repercussions of the ongoing genocide and ethnic cleansing in both the Gaza Strip and the West Bank.

In Gaza, Israeli forces continue to commit atrocities amid escalating forced displacement, widespread deprivation of food and medical supplies, a suffocating blockade, and the obstruction of humanitarian aid.

Meanwhile, in the West Bank, the figures reflect the advance of settlement expansion and de facto annexation policies that impose daily threats to Palestinian life and presence.

Together, these developments amount to a deepening human and social hemorrhage that gravely endangers the survival of the Palestinian people.
