## on the Israeli Aggression on Gaza Strip and the West Bank

Covers the period from 1<sup>st</sup> to 7<sup>th</sup> June 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between June 1, 2025, and June 7, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

## Conclusion:<sup>30</sup>

By the end of 2024, the Gaza Strip's population dropped to around 2.1 million—a 6% decline from 2023—due to the ongoing genocide and its devastating humanitarian impact. During the same week, they injured 1,780 others—around 0.0848% of the population—at a daily rate of approximately 254 casualties.

This data highlights severe political and humanitarian consequences, as Israeli forces continue to commit genocide and ethnic cleansing in both the Gaza Strip and the West Bank. The situation has worsened with rising forced displacement, the denial of food and medical supplies, the ongoing blockade of Gaza, and the obstruction of humanitarian aid. During the reporting period, Israeli forces escalated attacks on civilians seeking aid, deliberately targeting them and killing 110 people, injuring 583, and causing the disappearance of nine others.
