

## Situation Report (No. 81) on the Israeli Aggression on Gaza Strip and the West Bank

Covers the period from 15<sup>th</sup> to 21<sup>st</sup> June 2025

# Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between June 15, 2025, and June 21, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

This data highlights catastrophic political and humanitarian repercussions, marked by the ongoing genocide and ethnic cleansing in both the Gaza Strip and the West Bank. During the reporting period, Israeli forces escalated forced displacement, blocked essential food and medical supplies, tightened the siege on Gaza, and continued to deny the entry of humanitarian aid. Civilians seeking relief faced a surge in deadly attacks, as Israeli forces deliberately targeted them while they attempted to access humanitarian assistance.
