

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 83)

Covers the period from 1st to 7th July 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between July 1, 2025, and July 7, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

This data underscores the catastrophic political and humanitarian consequences of Israel's ongoing crimes of genocide and ethnic cleansing in both the Gaza Strip and the West Bank. Throughout the reporting period, Israeli forces intensified forced

displacement, blocked the entry of essential food and medical supplies, and maintained the siege on Gaza. Civilians seeking humanitarian aid faced repeated massacres, as Israeli forces deliberately targeted them. Reports also documented cases of narcotics being found in flour bags distributed as aid.
