

**The Israeli Aggression on
Gaza Strip and the West Bank**
Situation Report (No. 89)
Covers the period from 7th to 12th August 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between August 7 and August 12, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:²⁵

By the end of 2024, Gaza's population had fallen to about 2.1 million—6% lower than the previous year—because of the ongoing genocide and its devastating humanitarian fallout. From August 7 to 12, 2025, Israeli occupation forces killed 424 people in the Strip, roughly 0.0202% of the total population, averaging 70.7 deaths a day. Over the same six days, they wounded 2,646 others, about 0.126% of the population, with a daily average of 441 injuries.

²⁵ Statistical analysis prepared by: Palestinian Return Centre Palestinian Return Center .

In 2024, the West Bank’s population stood at about 3.4 million, according to official estimates. Between August 7 and 12, 2025, Israeli occupation forces killed one Palestinian and injured 23 others—around 0.000676% of the population—at a daily average of 4.6 injuries. During the same period, they arrested 81 citizens, about 0.00238% of the population, averaging 16.2 arrests per day.

Details	Number/Ratio	Data
Number of deaths from August 7 to August 12, 2025	1	Number of deaths
Number of arrests from August 7 to August 12, 2025	81	Number of arrests
Number of wounded from August 7 to August 12, 2025	23	Number of wounded
Estimated population of the West Bank for 2024	3,400,000	Total population in the West Bank
The percentage of deaths compared to the population of the West Bank	--	Percentage of deaths from the total population
The percentage of arrest crimes compared to the population of the West Bank	0.00238%	Percentage of arrest crimes to the total population
The percentage of wounded compared to the population of the West Bank	0.000676%	Percentage of wounded to the total population
Average number of arrests per day from August 7 to August 12, 2025	16	Daily rate of arrests
Average number of wounded per day from August 7 to August 12, 2025	5	Daily rate of wounded

The data highlights catastrophic political and humanitarian consequences, including Israel's ongoing genocide and ethnic cleansing in both Gaza and the West Bank. These crimes unfold amid escalating forced displacement, deprivation of food and medical supplies, the tightening blockade on Gaza, and the denial of aid entry. During the reporting period, Israeli forces carried out repeated massacres of civilians seeking humanitarian relief, deliberately targeting them. The report also tracked Israel's attempts to pave the way for a full occupation of Gaza, as attacks on neighborhoods in Gaza City and central areas of the Strip intensified. At the same time, worsening famine claimed lives daily.
