

**The Israeli Aggression on
Gaza Strip and the West Bank**
Situation Report (No. 91)
Covers the period from 19th to 24th August 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between August 19 and August 24, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:²⁵

By the end of 2024, the Gaza Strip’s population stood at about 2.1 million—down 6% from 2023 as the genocide and its devastating humanitarian toll forced a sharp decline. Between August 19 and 24, 2025, Israeli occupation forces killed 380 people in Gaza, wiping out roughly 0.0181% of the population in just six days at an average of 63.3 deaths daily. In the same period, they wounded 1,694 others—around 0.0807% of the population—with a daily average of 282.3 injuries.

²⁵ Statistical analysis prepared by: Palestinian Return Centre Palestinian Return Center .

the West Bank, the population in 2024 was estimated at around 3.4 million. Between August 19 and 24, 2025, the Israeli occupation forces injured 37 people—about 0.00109% of the population—at a daily average of 6.2 injuries. During the same six-day period, they arrested 96 citizens, equal to roughly 0.00282% of the total population, averaging 16 arrests per day.

Details	Number/Ratio	Data
Number of deaths from August to August 24, 2025	--	Number of deaths
Number of arrests from August to August 24, 2025	96	Number of arrests
Number of wounded from August to August 24, 2025	37	Number of wounded

Average number of arrests per day from August to August 24, 2025	16	Daily rate of arrests
Average number of wounded per day from August to August 24, 2025	6	Daily rate of wounded

The data underscores catastrophic political and humanitarian consequences, marked by Israel's ongoing genocide and ethnic cleansing in both Gaza and the West Bank.

This period saw escalating forced displacement, deprivation of food and medical supplies, and the continued blockade that prevents aid from entering the Strip. The Israeli occupation forces carried out repeated massacres against civilians seeking humanitarian assistance, deliberately targeting them. They also intensified attacks on neighbourhoods in Gaza City as well as central areas of the Strip, signalling attempts to clear the way for full occupation. Meanwhile, worsening famine was documented, claiming lives daily.
