

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 94)

Covers the period from 8th to 14th September 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between September 8 to September 14, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

The data highlights catastrophic political and humanitarian consequences, marked by the ongoing genocide and ethnic cleansing in both the Gaza Strip and the West Bank. These crimes are unfolding amid escalating forced displacement, severe shortages of food and medical supplies, and the continued blockade of Gaza, which prevents life-saving aid from entering.

During the period covered by this report, Israeli forces continued to massacre civilians seeking humanitarian assistance, deliberately targeting them. They also intensified the destruction of large residential areas in Gaza City and forcibly displaced their inhabitants.
