

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 96)

Covers the period from 22nd to 26th September 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between September 22 to September 26, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:²²

By the end of 2024, Gaza's population had dropped to around 2.1 million—down 6% from 2023—due to the ongoing genocide and its devastating humanitarian toll. Between September 22 and 26, 2025, Israeli occupation forces killed 262 Palestinians in Gaza, meaning roughly 0.0125% of the population was assassinated in just five days—an average of 52 deaths per day. During the same period, 943 others were wounded, accounting for about 0.0449% of Gaza's residents, or nearly 189 injuries daily.

Details	Percentage of the total population	Number/Ratio	Data
Total population of the Gaza Strip until the end of 2024	--	2,100,000 people	Population of the Gaza Strip until the end of 2024
A 6% decrease compared to 2023 due to genocide	--	6%	Population decrease compared to 2023
Number of deaths from September 22 to September 26, 2025	0.0125%	262	Number of deaths

Average daily number of injuries from September 22 to September 26, 2025	--	189 wounded	Average number of injuries per day

²² Statistical analysis prepared by: The Palestinian Return Centre – Palestinian Return Center .

Official estimates indicate that the West Bank's population reached about 3.4 million in 2024. Between September 22 and 26, 2025, Israeli occupation forces killed four Palestinian civilians in the West Bank over five days. During the same period, 38 Palestinians were injured—around 0.001% of the population—averaging eight injuries per day. In addition, Israeli forces arrested 74 Palestinians, accounting for roughly 0.0022% of the population, with an average of nearly 15 arrests daily.

Details	Number/Ratio	Data
Number of deaths from September 22 to September 26, 2025	4	Number of deaths
Number of arrests from September 22 to September 26, 2025	74	Number of arrests/prisoners
Number of wounded from September 22 to September 26, 2025	49	Number of wounded
Estimated population of the West Bank for 2024	3,400,000	Total population of the West Bank
The percentage of deaths compared to the population of the West Bank	--	Percentage of deaths as a percentage of the total population
The rate of arrest crimes compared to the population of the West Bank	0.0022%	Percentage of arrest crimes relative to the total population
The percentage of wounded compared to the population of the West Bank	0.0011%	Percentage of injured people as a percentage of the total population
Average number of arrests per day from September 22 to September 26, 2025	15	Daily rate of arrests
Daily average number of injuries from September 22 to September 26, 2025	8	Daily rate of injuries

These figures underscore the grave political and humanitarian repercussions of Israel's ongoing crimes of genocide and ethnic cleansing in both the Gaza Strip and the West Bank. They reflect escalating forced displacement, severe deprivation of essential food and medical supplies, the continued siege on Gaza, and the obstruction of humanitarian aid.

During the reporting period, Israeli forces persisted in massacring civilians attempting to obtain humanitarian assistance, deliberately targeting them. At the same time, the occupation army intensified the destruction of large residential areas in Gaza City and forcibly displaced their residents.
