

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 97)

Covers the period from 27th to 30th September 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians between September 27 to September 30, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

During the same timeframe, 39 Palestinians were wounded—around 0.0011% of the population—averaging about 10 injuries per day. Additionally, Israeli forces arrested 45 Palestinians, representing approximately 0.0013% of the population, with a daily average of around 11 arrests.

They reflect escalating forced displacement, the denial of essential food and medical supplies, the ongoing blockade on Gaza, and the obstruction of humanitarian aid.

During the reporting period, Israeli forces continued to carry out massacres against civilians seeking humanitarian assistance, deliberately targeting them. The occupation army also intensified the destruction of large residential areas in Gaza City and forcibly displaced their residents. Additionally, evidence documented the continued direct targeting of hospitals and medical facilities by Israeli forces.
