

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 98)

Covers the period from 1st to 4th October 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from October 1 to October 4, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

Conclusion:¹⁸

By the end of 2024, Gaza's population had fallen to around 2.1 million—down 6% from 2023—due to the ongoing genocide and its devastating humanitarian impact. Between October 1 and 4, 2025, the Israeli occupation army killed 257 Palestinians in the Gaza Strip, amounting to about 0.01% of the total population in just four days—an average of nearly 64 deaths per day. During the same period, 894 Palestinians were injured, representing roughly 0.0426% of the population, with a daily average of around 224 injuries.

¹⁸ Statistical analysis prepared by: The Palestinian Return Centre – Palestinian Return Center .

According to official estimates, the West Bank’s population stood at around 3.4 million in 2024. Between October 1 and 4, 2025, Israeli occupation forces killed one Palestinian in the West Bank over a four-day period. During the same timeframe, 33 Palestinians were injured—about 0.001% of the population—averaging roughly eight injuries per day. In addition, Israeli forces arrested 44 Palestinians, representing approximately 0.0013% of the population, with a daily average of around 11 arrests.

Details	Number/Ratio	Data
Number of deaths from October 1 to October 4, 2025	1	Number of deaths
Number of arrests from October 1 to October 4, 2025	44	Number of arrests/prisoners
Number of injuries from October 1 to October 4, 2025	33	Number of wounded
Estimated population of the West Bank for 2024	3,400,000	Total population of the West Bank
The percentage of deaths compared to the population of the West Bank	--	Percentage of deaths as a percentage of the total population
The rate of arrest crimes compared to the population of the West Bank	0.0013%	Percentage of arrest crimes relative to the total population
Percentage of wounded compared to the population of the West Bank	0.0001%	Percentage of injured people as a percentage of the total population
Average number of arrests per day from October 1 to October 4, 2025	11	Daily rate of arrests
Daily average number of injuries from October 1 to October 4, 2025	8	Daily rate of injuries

These figures reveal the grave political and humanitarian repercussions of Israel's ongoing crimes of genocide and ethnic cleansing in both the Gaza Strip and the West Bank. They underscore the escalation of forced displacement, the denial of essential food and medical supplies, the persistence of the siege on Gaza, and the obstruction of humanitarian aid.

During the reporting period, Israeli forces continued massacring civilians attempting to access humanitarian assistance, deliberately targeting them. The occupation army also expanded the destruction of large residential areas in Gaza City and forcibly displaced their residents. Furthermore, reports documented the continued direct targeting of hospitals and medical facilities by Israeli forces.
