

The Israeli Aggression on Gaza Strip and the West Bank Situation Report (No. 99)

Covers the period from 5th to 10th October 2025

Introduction

Since October 7, 2023, the Israeli occupation has waged a genocidal war on the Gaza Strip, blatantly violating international law, including the 1948 Genocide Convention, which obligates state parties to pursue the enforcement of its prohibition. This onslaught has claimed tens of thousands of lives and left many more wounded.

Israeli occupation forces have blatantly violated the terms of the temporary ceasefire, resuming genocidal attacks on Gaza's civilian population with even greater intensity. Their renewed aggression has escalated dramatically, causing widespread destruction that has rendered the Strip uninhabitable. At the same time, they continue to enforce a suffocating blockade, starve the population, and forcibly displace thousands.

Meanwhile, the West Bank has seen a sharp escalation in violations, with increased assassinations, mass arrests, and settler attacks backed by the occupation army—part of broader ethnic cleansing and forced displacement policies. This report documents daily scenes in Gaza and the West Bank, highlighting crimes and attacks targeting Palestinians from October 5 to October 10, 2025. It also includes data on the consequences of the genocide since October 7, 2023.

These figures highlight severe political and humanitarian consequences, as Israeli forces continue to carry out genocide and ethnic cleansing in both the Gaza Strip and the West Bank. Forced displacement has escalated, while Palestinians face deliberate deprivation of food, medical supplies, and other essentials amid the ongoing siege and restrictions on aid entry.

During the reporting period, Israeli forces continued to massacre civilians seeking humanitarian assistance, intentionally targeting people attempting to reach aid. The occupying army also expanded the destruction of major residential districts in Gaza City and forcibly displaced their residents. The report further documents Israel's ongoing attacks on civilians despite the declared ceasefire that took effect at noon on Friday, 10 October 2025.
